

Harvia Outdoor sauna

HARVIA
Natural well-being.

A great sense of well-being derived from relaxation and aesthetics.

A Harvia sauna provides the opportunity for a moment of luxurious relaxation. The heat opens the pores in the skin and cleanses the body. Perspiration evens out the temperature, simultaneously keeping the skin clean, firm and beautiful. A relaxing sauna bath will also help you get a good night's sleep.

You can experience a breath of forest freshness in your Harvia Outdoor Sauna. The trees tell their own life story through their annual rings, fibres and knots. The wood surface is beautiful and soothing. Just like every tree, every Harvia sauna is also an individual with its own personality.

Harvia Outdoor Sauna Enjoyment

Harvia sauna – a genuine Finnish sauna enjoyment. The feeling of open air on your skin. A combination you have to experience! For centuries in Finland sauna was a separate building with its characteristic features.

Now you can feel the same atmosphere in Harvia Outdoor Sauna models Kuikka and Keitele.

Whether you choose the original woodburning sauna stove or an electric heater, you will find the same distinguished Harvia sauna spirit in your outdoor sauna.

Harvia Outdoor Sauna delivery is not just the sauna building itself, it is much more. The delivery consists of all necessary wood material, roof material of bitumite felts, fastening material and also – according to your choice – a woodburning heater with chimney or an electric sauna heater.

Next to a swimming pool, in a green garden or in the middle of the humming forest Harvia Outdoor sauna will give you the authentic, peaceful moments of enjoyment.
